AMRUTHA M P

Junior Fullstack Developer

amruthapraveenmp@gmail.com | +91 9656141993

Portfolio : amruthanithink17.github.io/ank-dev-portfolio

SUMMARY

Motivated Junior Full Stack Developer and Programming Instructor with 2+ years of experience in web development and teaching. Skilled in Python, Django, HTML, CSS, JavaScript, and Bootstrap, with practical expertise in front-end and back-end projects, Git/GitHub, and deployment on PythonAnywhere. Passionate about building user-focused web applications and continuous learning in dynamic tech environments.

WORK EXPERIENCE

Full Stack Development Trainer
Nov 2024 – Present

ICS Group of Institution, Ottapalam, Kerala

- Trained 50+ students in Python, HTML, CSS, and JavaScript, enhancing project completion and placement readiness
- Guided students in developing and deploying 25+ real-world web projects on GitHub and PythonAnywhere
- Conducted practical sessions on HTML, CSS, Bootstrap, and jQuery for hands-on skill development
- Mentored students in building and deploying web projects using WordPress
- Introduced version control tools (Git & GitHub) for collaborative development
- Supported placement activities through skill-based project evaluations

Software Trainer
Jun 2023 – Oct 2024

IIT Education Institute, Perinthalmanna (Under Rutronics)

- Conducted hands-on training in programming languages including C, Python, Java, PHP, and VB.NET
- Designed and delivered curriculum modules, ensuring alignment with industry standards and student learning goals
- Guided multiple batches of students through project-based learning and final project deployment
- Assisted students in developing real-world applications and improving coding, debugging, and problem-solving skills
- Collaborated with the academic team to evaluate student performance, providing feedback and mentorship for continuous improvement

OTHER EXPERIENCE

Administrative Intern – GST Office (2022)

- Assisted in managing and maintaining official documentation and records in compliance with government standards
- Developed organizational, clerical, and time management skills while supporting daily administrative operations
- Processed and verified data entries, ensuring accuracy and confidentiality of information
- Supported senior officers in report preparation and document filing activities
- Gained exposure to office workflow management and public sector administrative procedures

PROJECTS

Student Management API

Django, DRF, Python, SQLite

- Built a backend API for managing students, courses, and admin tasks with authentication and CRUD features.

Sales Data Analysis Tool

Python, Pandas, Matplotlib

- Created a data analytics tool to visualize sales trends and generate business insights.

Data Analysis Learning Platform

HTML, CSS, JS, Jekyll

- Designed an interactive learning site with tutorials and coding exercises for beginners.

GreenCart Organic Store

HTML, CSS, JS, Bootstrap

- Developed a responsive e-commerce prototype with product listings and shopping cart functionality.

EDUCATION

Bachelor of Computer Applications (BCA)   *June 2019 - April 2022*

Calicut University, Kerala

- Gained strong foundation in computer programming, database management, and web technologies.
- Studied core subjects including C, C++, Java, Python, PHP, Data Structures, and Operating Systems.
- Completed academic projects using Django, MySQL, and HTML/CSS/JavaScript.
- Developed analytical, problem-solving, and teamwork skills through project-based learning.

TECHNICAL SKILLS

- **Programming Languages :** Python, Java, C, C++, PHP, VB.NET
- **Web Technologies** : HTML, CSS, JavaScript, Bootstrap
- **Frameworks & Tools** : Django, Django REST Framework, Git, SQLite, MySQL
- **Other Skills** : API Development, Data Analysis, Problem Solving, Debugging

SOFT SKILLS

- **Communication**
- **Teamwork & Collaboration**
- **Problem Solving**
- **Time Management**
- **Adaptability & Learning**
